

Commercial Containers

from Cascade Engineering

A complete line of maintenance free plastic front and rear load containers

Commercial Containers

from Cascade Engineering

Spend less time, less effort, and less long-term expense on waste containers with Cascade Engineering's Plastic Rotational Molded (RM) frontload and rearload containers.

Cascade's Commercial Containers are:

- Lightweight and easy to maneuver – typical weight is 30% less than the same size metal bin
- Quiet – reduces noise levels during use by as much as 50 decibels
- Maintenance free – easily cleaned (graffiti resistant), never needs painting
- Rugged – dent and impact resistant
- Durable – longer product life than metal
- Stackable for convenient handling
- UV stabilized against long-term effects of the sun
- Backed with a 5 year prorated warranty

Size	Truckload Quantity (53ft)	# Per Stack	Load Rating (lbs)	Weight (lbs)	Dimensions DxWxH (includes casters)
2 Yard Frontload poly lid w/casters	60	5	1500	370	41" X 82" X 52"
